

Lard Is An Animal Product— Cottolene Is a Vegetable Product

The source of lard is unclean and the product is often unhealthy. The source of *Cottolene* is absolutely clean and wholesome and the product is as healthful as olive oil.

Cottolene comes from the cotton fields of the Sunny South; it is a product of Nature, refined by our exclusive process. Lard comes from the pig-sty and is simply indigestible hog fat.

Cottolene makes food that any stomach can digest, while lard is the cause of nine-tenths of all indigestion.

Cottolene is the best frying and shortening medium made today. Wherever exhibited in competition with any and all other cooking fats, it has always been granted Highest Awards.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

Rentfrow Stock Company Will Hold Boards at the Temple.

The Rentfrow Stock company, which will show all of next week at the New Temple Theatre, has been receiving the best of notices wherever it has appeared, as may be seen from the following, taken from the Shawnee (Okla.) Herald:

"The Rentfrow Stock company opened a week's engagement at the Becker theater last night, presenting the 'Great Milky Way.' That large audience which assembled, despite the inclement weather, was pleased, is but a feeble expression of the marked appreciation shown by the outbursts of applause. The audience displayed such intense interest in the clever interpretations by the artists of the difficult roles assigned them and their masterful working out of an intricate plot, that they were swayed at will into a fever of enthusiasm. The scenery was elaborate and very effective. Miss Minnie Remaley, as Marguerite de Vallery, showed a consummate art in her exceptionally clever handling of an exceedingly difficult part. She has a pleasing personality and graceful bearing, which help to carry out to advantage the effect of the artistic creations of dressmaker's art worn last evening. Mr. Fred Dannon, as Gustave Volante, showed himself to be an artist of rare ability, possessed of a brilliant, easy grace and stalwart physique that go to make an ideal stage hero. The balance of the company is composed of capable artists who did themselves proud in every instance."

CITY COUNCIL IN SESSION

Adjourned Meeting Held Last Night.
No Very Important Business Came Up.

The city council was in session for two hours last night. Mayor Hearne presided, with Aldermen Manley, Wright, Huff, Watts, Normington and Wilson present; also Secretary Allen, Attorney Gooch, and Officer Moore.

Unfinished business was the first thing taken up, and first under this head was a report from the city attorney regarding the city's refunding on the unused portion of a liquor license. The attorney gave his opinion that the city was responsible for the refund. The matter was discussed at length, but finally passed over without any action having been taken.

A petition was read from citizens, asking the city to construct a concrete sidewalk across Hoxie street, between the Y. M. C. A. and the Grigsby home. The council expressed favor for the proposition and referred it to the street committee with power to act.

The appointment of Policemen Hardgree and Brizendine was confirmed by the council, and their bonds were approved.

A number of medical accounts were discussed, and after an explanation by the mayor, were allowed. They were for smallpox cases treated at the order of the mayor.

J. F. Brook, supervising engineer for the city in the street paving work, made a report on the work as far as accomplished. He said since the work was started in September the contractors had lost virtually twenty-one days, but said the fault was not with the paving company, but with the firm that contracted to furnish crushed granite for the work. His report said the pavement so far completed was satisfactory in every respect and was in keeping with the letter of the contract.

The Swann Furniture and Carpet company was granted a permit to build an iron warehouse on the west right of way of the railroad, within the fire limits.

The ordinances proposing the purchase of the street paving bonds by the city were ordered expunged from the minutes of the council, never having been finally passed.

The mayor was authorized to invest \$5,000 of the street fund in city hall bonds. After discussion the council adjourned.

A SURPRISED MINISTER.

"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomei, which brought complete relief. Hyomei has been a veritable godsend."—Rev. Charles Hartley, Sardinia, Ohio.

Thousands of catarrh sufferers have given up in despair. They have tried stomach dosing, snuff, sprays and douches without success, and now believe catarrh to be incurable.

But Bratton, the druggist, holds out hope to all distressed. He sells a remedy called Hyomei which is guaranteed for catarrh, colds, coughs, bronchitis, asthma and croup.

Hyomei (pronounced High-o-mei) is medicated air, full of the healthy virtues of the mountain pines. You breathe in the delightful antiseptic air, and as it passes over the inflamed and germ ridden membrane, it allays the inflammation, kills the germs, and drives out the disease.

A complete Hyomei outfit, including a hard rubber inhaler, costs but \$1, and an extra bottle of Hyomei, if afterwards needed, costs but 50 cents. See Bratton Drug Co. about it today.
